FOR WATERING GARDENS, DISTRIBUTING LIQUID MANURE, BREWERS' USE, &c.

PATENT VULCANISED INDIA-RUBBER HOSE-PIPES AND FLEXIBLE GAS-TUBING

MANUFACTURED BY THE HANCOCK Sole Licensee and Manufacturer, Goswell-road, London. These pipes are well adapted for watering gardens, conveying liquid manures, reading beer and cider, for portable gas-lamps, and all purposes where a perfectly sound unobstructed and flexible pipe is required. Hot liquors or acids do not injure them; they are, therefore, much used for chemical purposes, as they can be boiled out or drawing when cast of use; new pipe with the hose for fire-engines, and are found exceedingly useful for conveying heat or cold water to baths, &c. Specimens of various sizes may be had on application to the manufactory. Waterproof and India-Rubber Cloths, Belting, fitted up with rings, jets, and brass-tube couplings, with unions for hose ready to be screwed on pumps or water-cisterns. All orders or letters addressed to J. T. Hancock, Goswell-green, Goswell-road, London, will meet with immediate attention. Waterproof fishing boots and stockings, air-cushions, india-rubber bands, shower-bath and sponge bathe, air pillows and beds, made all sizes to order.

THOS. LAMBERT and SON,

PATENTEES of the Flexible Diaphragm and High-pressure Valve Cocks.

Equilibrium Ball Valves, and Self-acting Water-closets; manufacturers of Hydraulic, Gas, and Steam Fittings, Tin, Lead, and Composition Pipes.

SHORT-STREET, NEW CUT, LAMBETH, LONDON.

ILLUSTRATED TRADE LISTS;

containing much information useful for reference; also small and unobtainable respective a MATERIAL which, when cold overcoat, is probably superior to every other for drains or conduits, for ridges, hips, valleys, and every part of roofs, for plain or ornamental floors, for paving and coverings, of a strong and durable nature, also many other purposes, supplied gratuitous by THOMAS FRANCIS, inventor of Frodsh's "Verro-Metallic", No. 4 WHARF, CITY ROAD BASIN, LONDON; and at THE TILERIES, CONSTALL, STAFFORDSHIRE. The lists contain both prices by number and approximate cost by measure. If is collected that orders be executed, and state if Staffordshire or London prices are wished. Inventors at the GREAT EXHIBITION, Class 27, No. 130 (having been at first No. 1111).

STOCK and SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of sanitary improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus as will enable the constant supply of water service to be made available for the removal of the pollution by preventing the enormous waste of water in places of this description, to which water companies now so strongly and so properly object. By the use of this service-box an ample supply of water is obtained, without the necessity of the latter wasted by propping the valve, unclogging the handle, or by other means. It is so constructed that, as soon as the discharge valve is closed open, a further supply cannot enter the service box from the main. Drawings and description may be obtained from STOCK and SON, manufacturers of plumbers' brass-work, gas-fittings, and church furniture, in iron and brass, Temple-street, Birmingham.

DRAIN PIPE WORKS. — T. SMITH,

TERRA-COTTA CHIMNEY TOPS, &c. &c.

WAREHOUSE, 3, HIGH-STREET, LIVERPOOL.

IMPROVED DRAINAGE BY ROYAL LETTERS PATENT.

STANDING, FRANKLIN, & STANDING,

Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE NEW ARE PIPE. Offices, 28, Cornhill, entrance in Change-alley; Factory, Brunswick Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect, and already mode of drainage. From the great and uniform accuracy of its bore, and peculiar construction of the machinery, allowing the air to escape, used in manufacturing, their pipes are entirely free from air bubbles, proving their greater strength, durability, and entirely preventing the resistance percolating (through) they are already adopted on the Metropolitan Sewers, ensuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the offices, 28, Cornhill, where prices, &c., may be obtained, and licenses granted for the use of the patent machine.

SUPERIOR GLAZED STONEWARE DRAIN PIPES,

invented and manufactured by

WILLIAM NORTHES, UNION POTTERY, No. 14, VAUXHALL WALK, LAMBETH.

W. NORTHES begs to inform surveyors, contractors, builders, water companies, &c., that he has completed "Spencer's" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it ensures perfect uniformity in form and size, both of pipes and sockets, the clay being of a different and better construction than any others now in use; and the pipes and sockets being made by one process are secure from separation.

W. N. invites particular attention to the superior quality of the glaze used in his manufacture which is equal to glass, and rendering entrance to the drains impossible. CLOSET PANS, with bowls and fixed traps, and improved inside white glaze.—W. NORTHES'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:

Kesher and Co.'s Wharf, Limehouse, Kingsland, Ranelagh-road, and Millbank, Westminster.—Martin and Wells, Hart's Wharf, Regent's Park basin.—J. C. Hilsum, Crown and Horse-shoe Wharf, No. 4, Upper Thames-street.—Lodge and Son, Richmond.—Freeman and Richardson's Neptune Wharf, Paddington.—G. Heath's, Cambridge Heath Wharf, Hackney.—W. Parry's, Canal Bridge, Old Kent-road.—Millwood and Samuel's Wharfs, Kensington Basin, and Chelsea Wharf, Hammersmith.—J. Corbett's Depôt, Britton-street, Clerkenwell, and at the Pottery.

STEPHEN GREEN and CO.'S IMPROVED DRAIN PIPES,

GLAZED INSIDE.—WORKS, IMPERIAL POTTERIES, PRINCES-STREET, LAMBETH.

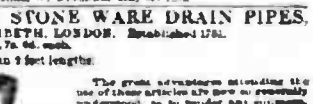
Common-shape Closet Pans, well cleaned inside, 7s. 6d. each.

Extra, if fitted with the patent air-tight valve, by which the trap can be cleansed without removing the seat, 1s. 6d. each.

Various patterns of improved shapes always on hand.

Straight Tubes, Junctions, Bends, Curves, Elbows, Syphon-Traps, Flap-traps, Grates, Surface-sinks, and intervening Pipes always kept in stock.

Manufacturers of the



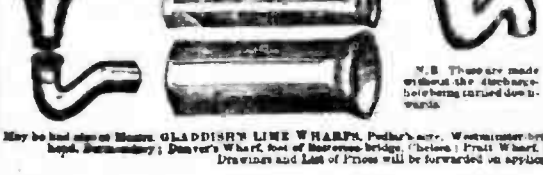
PATENT SYPHON FLUSHING-BASIN, WITHOUT METAL SPREADER, WITH SELF-ACTING CLOSET CONNECTIONS. Specimens of Pipes and Closets at the Great Exhibition, Classes 27 and 27. For illustrative drawings and testimonials, see Builder, May 31, 1851.

JAMES STIFF, MANUFACTURER of GLAZED STONE WARE DRAIN PIPES,

BENDS, JUNCTIONS, TRAPS, &c., 28, HIGH STREET, LAMBETH, LONDON. Established 1781.

Water Closet Pans, with Syphon Traps, 7s. 6d. each.

STRAIGHT TUBES, with Socket Joints, in 2 feet lengths.



N.B. These are made without the disagreeable bolt-bearing turned down inwards.

The great advantages attending the use of these articles are now so generally understood, as to render any enumeration of them almost superfluous. Their cleanliness, efficiency, and durability, are universally admitted, while the rapidity in executing demanded for them proves their estimated superiority over every other kind hitherto before the public for similar purposes.

Inspection is invited to all a constant stock of Drain Tubes, of every form and size, adapted to the various circumstances for which they may be required, as also to the WATER-CLOSET PANS OF IMPROVED CONSTRUCTION, and interior glaze far surpassing any other manufactured of Brown Stone Ware.

May be had also at Messrs. GLADDISH'S LIME WHARFS, Pedlar's-acre, Westminster-bridge; City-road Wharf, City Basin; Deptford, Surrey-canal; Denver's Wharf, foot of Battersea-bridge, Chelsea; Pratt Wharf, Kingsland, Camden New Town.

Drawings and List of Prices will be forwarded on application.
